the book of the best

free flight's encyclopaedia – compiled by Ursula Wiese

1945 – 2016

SAC
board of directors
and
committees

FAI affiliations

Editorial

These pages are dedicated to those fine volunteers in our association who have given so freely of their energy and time to make the organization work for the benefit of everyone.

This document shows our SAC board of directors and every SAC committee and its members since inception of the Soaring Association of Canada. There are a number of volunteers helping in FAI committees – yes, we are also represented there! The *name index* pages cross-reference individuals with the offices held by them – for biographies and the like. Additions to this file are made at least annually.

The data have been gathered from the first “SAC Procedures Manual”, issued in 1982, and from *free flight* issues dating back to 1945; however you will find quite a few empty spots. If you know of any names that could fill a hole, please let me know. Equally important is the correction of errors.

Your help is most appreciated.

Ursula Wiese

Background for

Finance & Steering Committee 1991-2004

The Steering Committee was an ad hoc construct. It was originally established when there was a lot of pressure on SAC because of the airspace issue, the establishment of NavCan, as well as issues associated with the reorganization of Transport Canada. SAC had to act fairly quickly on several fronts and there was not always time to have board meetings which, in addition, were costly. There was also a need to quickly build a competent Airspace Committee.

Eventually the work of the Steering Committee seemed to overlap too much with that of the Board, so the Committee was dropped.

A similar committee could be constituted if a critical issue that required a lot of extra attention were to arise.

At the time, the Committee was instrumental in dealing with most of the important regulatory issues facing the soaring community.

Jim McCollum – e-mail 16 March 2004

statistics for Roden trophy

1949-1997

FF 3•4/5 — terms of reference

Responsible for producing records of statistical information covering all aspects of Canadian gliding to the AGM and for submittal to the FAI.

The statistics on hours, gliders, participation in flying by clubs, achievement of A, B, C badges, unusual flights made, etc. were considered for the Roden trophy.

End of 1997, this committee was discontinued for lack of participation by the clubs.

The Roden trophy will now be awarded for different requirements and will be handled by the FAI awards chairman.
